

# Exam information sheet

## 13.1 Contractor – Lightning protection

## Introduction

This document includes information on the objectives of the examination, a summary of its content, and the legislation and standards to be studied.

## Examination objectives and presentation

Successful candidates may act as guarantors for construction work included in the following subclass:

### 13.1. Contractor – Lightning protection

This subclass authorizes construction work that is not exclusively reserved for electrical contractors relating to lightning protection installations, and similar or related construction work.

## Exam information

- Duration: 3 hours
- Passing grade: 60%
- Language: French or English
- Type of exam: multiple-choice questions

## Examination content

The examination for subclass *13.1 - Contractor – Lightning protection* covers the following subjects:

- Definitions and types of systems;
- Legislative, normative and regulatory framework;
- Reading and interpreting plans and specifications;
- Design and estimation;
- Standards and execution of work.

## Exam preparation

To prepare for the exam, it is advisable to review the **competency profile**, which describes all the competencies and skills required of the guarantor that could be evaluated during the exam.

You will find the **competency profile**, this information sheet and other relevant information on our website: [www.rbq.gouv.qc.ca/preparation-examen](http://www.rbq.gouv.qc.ca/preparation-examen).
