

Exam information sheet

14.1 Contractor – Passenger and freight elevators

Introduction

This document includes information on the objectives of the examination, a summary of its content, and the legislation and standards to be studied.

Examination objectives and presentation

Successful candidates may act as guarantors for construction work included in the following subclass:

14.1. Contractor – Passenger and freight elevators

This subclass authorizes construction work that is not exclusively reserved for electrical contractors relating to passenger and freight elevators, dumbwaiters, escalators, moving walks and material lifts governed by the current edition of CAN/CSA B44 Safety Code for Elevators and Freight Elevators, rendered applicable by Chapter IV of the Construction Code (D. 895-2004, 04-09-22) and defined in that Code, and related construction work.

Exam information

- Duration: 3 hours
- Passing grade: 60%
- Language: French or English
- Type of exam: multiple-choice questions

Examination content

The examination for subclass *14.1 - Contractor – Passenger and freight elevators* covers the following subjects:

- Definitions and types of systems;
- Legislative, normative and regulatory framework;
- Plans, specifications and estimates;
- Standards and management of work.

Exam preparation

To prepare for the exam, it is advisable to review the **competency profile**, which describes all the competencies and skills required of the guarantor that could be evaluated during the exam.

You will find the **competency profile**, this information sheet and other relevant information on our website: www.rbq.gouv.qc.ca/preparation-examen.
