

Introduction

This document includes information on the objectives of the examination, a summary of its content, and the legislation and standards to be studied.

Examination objectives and presentation

Successful candidates may act as guarantors for construction work included in the following subclass:

15.3 - Owner-builder – Oil burners

This subclass authorizes construction work reserved exclusively for master pipe-mechanics under the Master Pipe-Mechanics Act relating to oil combustion systems.

It also authorizes construction work in subclass 15.3.1.

Lastly, it authorizes related construction work.¹

Exam information

- Duration: 3 hours
- Passing grade: 60%
- Language: French or English
- Type of exam: multiple-choice questions

Examination content

The examination for subclass *15.3 - Contractor – Oil burners* covers the following subjects:

- Definitions and types of systems;
- Legislative, normative and regulatory framework;
- Reading plans and specifications;
- Standards and execution of work.

¹ Source: *Regulation respecting the professional qualification of contractors and owner-builders.*

Exam preparation

To prepare for the exam, it is advisable to review the **competency profile**, which describes all the competencies and skills required of the guarantor that could be evaluated during the exam.

You will find the **competency profile**, this information sheet and other relevant information on our website: www.rbq.gouv.qc.ca/preparation-examen.
