

# Exam information sheet

16 Owner-builder – Electrical

## Introduction

This document includes information on the objectives of the examination, a summary of its content, and the legislation and standards to be studied.

## Examination objectives and presentation

Successful candidates may act as guarantors for construction work included in the following subclass:

### 16 - Owner-builder – Electrical

Except for demolition work, this subclass authorizes construction work on an electrical installation to which Chapter V of the Construction Code applies, introduced by the Regulation to amend the Construction Code approved by the decree 961-2002 of August 21, 2002, that is reserved exclusively for electrical contractors.

It also authorizes construction work relating to fixtures permanently connected to the electrical installation, if it is governed by Chapter V of the Construction Code and if it is not specifically governed by another subclass and construction work in subclasses 13.2 and 17.1.

Lastly, it authorizes related construction work.

## Exam information

- Duration: 3 hours
- Passing grade: 60%
- Language: French or English
- Type of exam: multiple-choice questions

## Examination content

The examination for subclass *16 - Owner-builder – Electrical* covers the following subjects:

- Definitions and types of systems;
- Legislative, normative and regulatory framework;
- Reading plans and specifications;
- Standards and execution of work.

## Exam preparation

To prepare for the exam, it is advisable to review the **competency profile**, which describes all the competencies and skills required of the guarantor that could be evaluated during the exam.

You will find the **competency profile**, this information sheet and other relevant information on our website: [www.rbg.gouv.qc.ca/preparation-examen](http://www.rbg.gouv.qc.ca/preparation-examen).
