

## Introduction

This document includes information on the objectives of the examination, a summary of its content, and the legislation and standards to be studied.

## Examination objectives and presentation

Successful candidates may act as guarantors for construction work included in the following subclass:

### 1.10. Contractor – Mechanical lifts

This subclass authorizes construction work relating to mechanical lifts and conveyors referred to in paragraph 7 of section 3.4 of the Regulation respecting the application of the Building Act.

It also authorizes construction work in subclasses 3.1, 4.1, 5.1 and 6.1 of Schedule II, when it is related to a mechanical lift or conveyor covered by this subclass.

Lastly, it authorizes related construction work.

## Exam information

- Duration: 3 hours
- Passing grade: 60%
- Language: French or English
- Type of exam: multiple-choice questions

## Examination content

The examination for subclass *1.10 - Contractor – Mechanical lifts* covers the following subjects:

- Legislative, normative and regulatory framework;
- General knowledge and equipment;
- Acceptance or periodic tests and trials;
