

# Exam information sheet

## 1.4 Contractor – Roads and mains

## Introduction

This document includes information on the objectives of the examination, a summary of its content, and the legislation and standards to be studied.

## Examination objectives and presentation

Successful candidates may act as guarantors for construction work included in the following subclass:

### 1.4. Contractor – Roads and mains

This subclass authorizes construction work on roads and public thoroughfares, sewers, water mains, pipelines, railroad structures and tunnels.

It also authorizes construction work included in subclasses 3.1, 4.1, 5.1 and 6.1 of Schedule II, when said work relates to a civil engineering structure governed by this subclass.

This subclass also authorizes construction work in subclass 1.6, but only to have it carried out, when it is related to a civil engineering structure covered by this subclass.

Lastly, it authorizes similar or related construction work.
