

Introduction

This document includes information on the objectives of the examination, a summary of its content, and the legislation and standards to be studied.

Examination objectives and presentation

Successful candidates may act as guarantors for construction work included in the following subclass:

1.7. Contractor – Telecommunications, transmission, transformation and distribution of electric power

This subclass authorizes construction work on electric power transformation and telecommunications stations and overhead and underground lines for electric power transmission, dispatching and distribution, and for telecommunication.

It also authorizes construction work included in subclasses 3.1, 4.1, 5.1 and 6.1 of Schedule II, when said work relates to a civil engineering structure governed by this subclass.

This subclass also authorizes construction work in subclass 1.6, but only to have it carried out, when it is related to a civil engineering structure covered by this subclass.

Lastly, it authorizes similar or related construction work.

This subclass authorizes, without exceeding the regulatory framework, construction work relating to:

- Towers and poles;
- Cables and cable splices;
- Wind turbine foundations or the complete erection of wind turbines;
- Grounding work and the modification or repair of electric transmission stations belonging to a distributor of electric power.
- Work on an electrical station located within an electric power plant.

Exam information

- Duration: 3 hours
- Passing grade: 60%
- Language: French or English
- Type of exam: multiple-choice questions

Examination content

The *Execution of Construction Work* exam includes sections on the following subjects:

- Specific definitions and principles
- Specific legislative, normative and regulatory framework
- Reading and interpreting specific plans and specifications
- Cost estimates and bids for a specific project
- Management of specific construction activities
- Execution of construction work
- Specific prevention management

Exam preparation

To prepare for the exam, it is advisable to review the **competency profile**, which describes all the competencies and skills required of the guarantor that could be evaluated during the exam.

You will find the **competency profile**, this information sheet and other relevant information on our website: www.rbq.gouv.qc.ca/preparation-examen.

Recommended reading and materials provided during the exam session

As a guarantor, you must comply with the legislative and regulatory requirements of your field of qualification. Accordingly, you must stay current with laws, regulations, codes and standards.

Subclass 1.7 - Contractor – Telecommunications, transmission,
transformation and distribution of electric power

Below are the main documents covering the subject of the exam:

Documents	Recommended reading	Provided at the exam
<i>Building Act (C.Q.L.R., c. B-1.1)</i>	X	
<i>Regulation respecting the professional qualification of contractors and owner-builders (RLRQ, c. B-1.1, r. 9)</i>	X	
<i>Civil Code of Québec (C.Q.L.R., c. C-1991)</i>	X	
<i>Criminal Code (c. C-21, art.217.1)</i>	X	
<i>Engineers Act (C.Q.L.R., c. I-9)</i>	X	
<i>Act respecting labour relations, vocational training and workforce management in the construction industry (C.Q.L.R., c. R-20)</i>	X	
<i>Cultural Heritage Act (chapter P-9.002)</i>	X	
<i>Environment Quality Act (C.Q.L.R., c. Q-2)</i>	X	
<i>Regulation respecting compensation for adverse effects on wetlands and bodies of water (C.Q.L.R., c. Q-2, r.9.1)</i>	X	
<i>Regulation respecting the environmental impact assessment and review of certain projects (C.Q.L.R., c. Q-2, r.23.1)</i>	X	
<i>Sustainable Forest Development Act (C.Q.L.R., c. A-18.1)</i>	X	

Many of these documents are available on the Publications Québec website at: www.publicationsduquebec.gouv.qc.ca.
