

Introduction

This document includes information on the objectives of the examination, a summary of its content, and the legislation and standards to be studied.

Examination objectives and presentation

Successful candidates may act as guarantors for construction work included in the following subclass:

6.1. Contractor – Wood structures

This subclass authorizes construction work relating to wood structures. It also authorizes construction work in subclass 6.2 of Schedule III, as well as similar or related construction work.

Exam information

- Duration: 3 hours
- Passing grade: 60%
- Language: French or English
- Type of exam: multiple-choice questions
- Only the documents and materials provided by the invigilator are permitted at the exam.

Examination content

The examination for subclass *6.1. Contractor – Wood structures* covers the following topics:

- Reading and interpreting plans and specifications;
- Legislative, normative and regulatory framework;
- Definitions and characteristics of structures;
- Standards and execution of work.

Exam preparation

To prepare for the exam, it is advisable to review the **competency profile**, which describes all the competencies and skills required of the guarantor that could be evaluated during the exam.

You will find the **competency profile**, this information sheet and other relevant information on our website: www.rbq.gouv.qc.ca/preparation-examen.
